

SLUSHIE MACHINE PROCEDURE

1. If machine already has pre-mix solution (red & blue) in it and has been turned on at the power point - **go to STEP 7**. Further, you **DO NOT** have to complete **STEPS 8 & 9** as this should have been completed and there should be pre-made pre-mix containers in the fridge ready to use for top ups. If there is no pre-mix solution in the machine, then go to **STEP 2** below.
2. Remove pre-mix solutions from the fridge. There should be one pink and one blue.

3. Remove Slushie Machine lids by pressing buttons at front and back of lids.

4. Pour pre-mix into their respective containers.
5. Replace lids. Make sure the metal clip on the inside of the lids go on the inside of the Slushie machine.

Make sure this clip goes on the inside of the Slushie containers

6. Turn on the Slushie Machine at the power point.
7. Set control panel buttons to "II".

Make sure "II" is selected

8. Make up new pre-mix solutions and place containers in the freezer so they get cold. Use these pre-mix solutions to top up the machine during the day.
9. To make up pre-mix solution, fill pre-mix container to the 2L line with syrup and then fill with water to the 8L line (Total – 10L)

Syrup Container – fill to 2L line

Fill with water to 8L line

IMPORTANT

10. Please keep an eye on the machine throughout the day. The slush will move to the front of the machine and make it appear there is enough. If this happens, it will freeze and the rotation will stop the machine. To avoid this, top up the machine before the slushie mix falls below the spinning wheels.

Fill machine with pre-mix solution before it falls below the spinning mixers.

Spinning mixers

11. When filling cups please hold lever on the stem.
12. **DO NOT** pull down on the ball otherwise it might break.

X - DO NOT pull down using lever ball

✓ - Pull down using stem of lever only

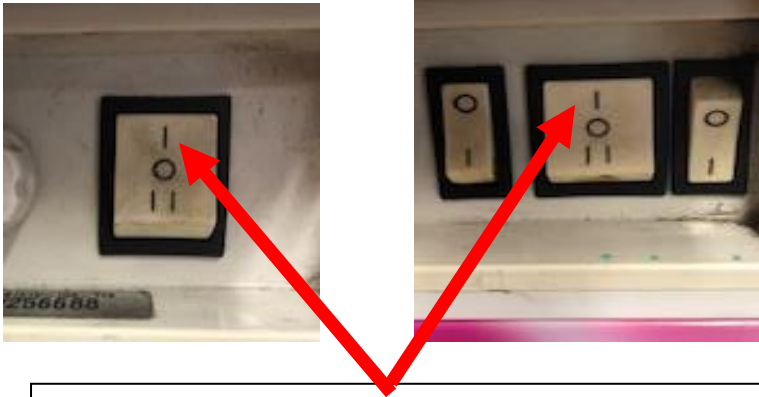

13. **DO NOT** overfill cups

Fill to about here.

14. SATURDAY AFTERNOON CANTEEN PACK UP:

- Before you go, please turn both control panel switches to cool – “I”. See image below.
- Remove pre-mix solution from freezer and put in fridge.

Make sure “I” is selected at end of Saturday afternoon

15. SUNDAY AFTERNOON CANTEEN PACK UP:

- Turn off Slushie machine at powerpoint; and
- Remove pre-mix solution from freezer and put into fridge.
